

# Silicone Rollers

Hot Stamping Supplies

ITW Imtran's rubber rollers are the ideal choice for peripheral decorating of cylindrical shapes and roll-on decorating of large flat or curved surfaces. The rubber conforms readily to surface variations in molded plastic parts, ensuring smooth application of hot stamping foils and multi-color heat transfers. Silicone rubber rollers are used in a variety of applications including banding, laminating, printing and decorating. Carefully engineered and crafted, our rollers are specifically matched to the application.

## Silicone Rubber

Formulations

- Supersil™ ( Red ), Standard
- Recotech™ ( Blue )
- Ultrasil™ ( Red )

**Hardness- Measured using a Shore A scale**

- 60 & 70 durometer, standard
- 40 - 90 durometer available

## Roller Specifications

Outside Diameter (A)  
Rubber Thickness (D)  
Face Length (E)

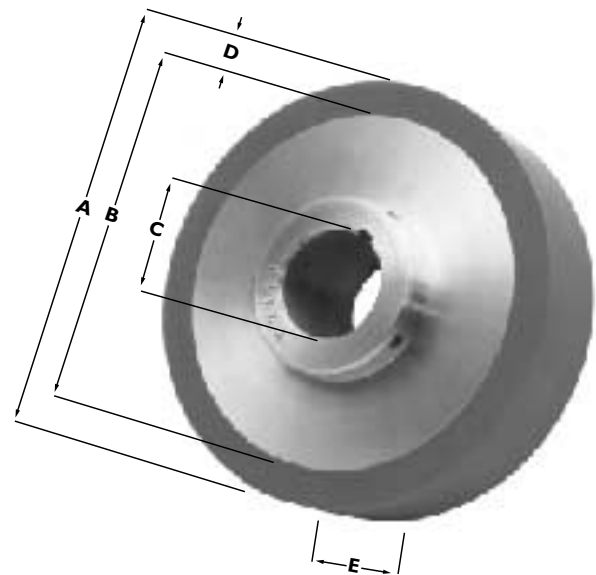

## Metal Core

Material

- Aluminum, standard
- Steel

Core Diameter (B)

Bore Diameter (C)

## Common Applications

- Heat Transfer & Hot Stamping
- Extruded Product
- Heat Sealing
- Edge Banding
- Cylindrical Shapes
- Packaging
- Laminating
- Feed & Guide Rollers
- Linerless Labels
